Secretary State Board of Pardons,

Gentleman: Re: Application of John Marshall for
Clemency.

In reply to your inquiry and request that I impart to you any information I may have which, in my opinion, will be of aid to your Honorable Board in the consideration of the application of John Marshall for clemency at your hands, I beg to state that I do not know the nature of the application of Marshall, but assume that he is now applying for a pardon in view of the fact that he was paroled several years ago.

While I have not been in close touch with Marshall during the last few years so as to observe his conduct, from the best information I can obtain, he has conducted himself as a law abiding citizen since he has been out on parole, and in my judgment, it would be the proper and gracious thing to do at this time to grant him a full pardon.

Very respectfully,

HNH:HK
