

A bootlegger is not entitled to sympathy, leniency or pardon. A bootlegger is one of the most detestable persons. For the sake of money, and in violation of a moral law, the bootlegger is destroying the morals of the community. The morals of our young people are in many cases irreparable destroyed by the actions of manufacturers of illicit liquor. The morals of the young people of Weber county are of greater worth than the liberty of John DeHeer.

I again voice my opposition to a pardon for John DeHeer, and will add that in my opinion the Board of Pardons will fail in its duty if the Board yields to the sobs of John DeHeer and turn a deaf ear to the petition of parents that their children be given protection against the Satanic influences of the bootlegger.

Yours Very Truly,

Alfred Glendwell.

Justice of the Peace,
Precinct of Burch Creek,
County of Weber,
State of Utah.
