FILE NO. _____

Logan

Dear Sir:-

Perhaps you will remember me as being introduced to you in your office by Mr. Baumunk the latter part of February.

H. V. Logan and I are full brothers he having lived all his life with my Mother who retained her maiden name after my folks separated. I was kind of a black sheep and would not stay with either of my parents.

I have, however followed Ry construction all my life. At present, I have three contracts in Longview, ^{wa} our in Rydewood, ^{wa} and my Father and I together have contract out of Vancouver ^{wa} to gravel $13\frac{1}{2}$ miles of highway about 30,000 cu yds of crushed rock for which work we've just purchased eight trucks.

I am not out to see justice defeated in any way but think Herb has really been taught a lesson. I understood you to say you had known him for some time, and I'm sure a word or letter from you to the board would help him a great deal.
