

We need the boy home and need him bad
as we are trying to build us a home my hus-
band hasn't got the time to put in in the
place we are not able to hire a man and I
feel like he has ^{been} punished enough. I got my
arm broke and my ribs fractured and ~~am~~
not able to do anything. Hardly my house
work. I am making arrangements for to have
him treated for his weaknesses.
he should be home with me for many reasons
I have stated a good many reasons to the
Governor, to Judge Frick and a good many
others. there are many good reasons why he
should be released
