

of things that he was as Innocent of doing as you were of it and all the witnesses testified to that he was Innocent and they began to question him and got him nerves and excited and his nerves all rusting and he didnt know what he was saying and Bro. Derr if ever I told the truth in my life I am telling you now that they sentenced that boy for 60 or 90 day I have for gotten just now which and caused him to loose a good job. then the next time that was two years ago last Sept they accused him again give him 6 months and this is the time that his wife divorced him by Judge Roberts telling her he wasnt fit for a husband are a father what do you think of this are they doing their duty

It was something 15 terrible Bro Derr some of my Brothers and my son-in-law and others say why dont he do like others go get what he wants but he told me once he says ma I have always kept my self clean never went to any of those place and I hope I never will and I dont think he ever did. I hope not. altho it has nearly killed me to think the poor boy has to suffer the injure and the lose he has had and the down fall, are that is the way most people look at it and the tearing down his spirits and faith in God and the distress I have went thro had I known that he would of had to of suffered like he has and had the trouble he has had and had the punishment he has had for something he cannot help I would of rather he died while

in the sight of our Lord. I say No. well one day while he was in jail at this time I have just told you he said to me one day Ma I dont know what I am in here for I never done any thing I know of well on tope of being in jail and not knowing what he was there for his wife stop going to see him are she wouldnt take his baby so he could see him and finally she sued for divorce. Can you I dare anyone else begin to know how this poor boy felt it was enough to caused him to go mad are Insane and this time they just tried to see how much they could say and do and the things that was printed in the news for everybody to read at home and all over the world

he would of never knew what happened to him this is hard for another to say but I would of knew he was out of suffering and as it is he has never been out of it nor I if you have had any trouble of your own are have any Idea of what a mothers love is for a Child I suppose you have Children of your own. I had 3 boys he is the only one living but to tell you the truth I have grieved and had more pain and distress over him than those that are gone and knowing as I say he is as Innocent as a babe he cause it is caused by being injured and not knowing what he is doing at the time I could tell you much more but I believe I have explained to you
