

We the undersigned residents of Riverton and vicinity, most strenuously oppose the granting of any reprieve to George H. Gardner, who murdered two innocent men, was convicted of the atrocious crime, by a jury, sentenced to pay the penalty by the judge, but whose execution has been delayed by a series of appeals.

By your non interference of the action of law we believe would be murderers, will be deterred from the commission of that crime, and the lives of innocent people will be safer in consequence.

Trusting you will permit the law to take its course we your petitioners ever pray.
