

UTAH STATE PRISON,
SALT LAKE CITY, UTAH.

when I say that I have never experienced a just opportunity to make good. I have been in trouble before and I realize the uselessness of it all and I am positive that society has nothing to fear from me in the future. All I beg of the Board of Pardons & society is, do not deny me the one & only real chance in ~~my~~ my life to be a man amongst men again.

I have payed the penalty of my wrong doing and I perceive life in the right way, there is no compensation for the loss of one's liberty.

I am a barber by trade. My friends from Denver Col. intend to support me in an independent shop of my own. On the day of the Board meeting they shall be present in person to plea for my release with transportation for me to Col. and a home of the best environment to live in.
