Hon. Chas. Mabey:  
Governor.

Honorable Sir:-

I would very much like to bring to your attention the case of Guat. Jaharopoulos now serving a sentence in the State Prison on a charge of Pandering - I am sure Sir you will agree if you look over the facts of his case that he has been severely punished, & that clemency at this time would be in order - inasmuch as there are hundreds of others guilty of the same offense but are not punished with Prison sentences, & further the evidence in this man's case shows that he was supposed to have received fifty cents from a colored woman, yet the colored woman was hurried out of town by an official who seemed overanxious to prosecute this particular man -

I have known Jaharopoulos for some time and I know him to be too much of a 100% man to be guilty of this offense therefore I ask you Sir, to give his case your serious consideration -

Thanking you  
I remain

Acknowledge  
res. to Bd Pardon

respectfully,

John Pantagos
