

As I am a Mother and widow who has
hardly been bedridden for the past four
years, an almost an invaled, and who
loves and takes full interest in my
children. And as this is the first Dishon-
est act that has ever been comited by any
of my children. My suffering is almost
unbearable to know that my baby boy
is in Prison.

If you could find it possible to
to parole him ^{as} I know my son would
never do ^a dishonest act again. You
would gladden a Mothers heart as it
has never been gladden before.
