

cut an old man ³ down in Greek
town with a knife and it is down
on record.

A party that used to live in her
house told me confidentially before
she ever cut my wife that she
killed a woman in Chicago some
years back and she is now wearing
the scar on her breast where the
woman cut her fighting for her
life and she also killed a colored
soldier in Amara or Lincoln
suburban.

She also chased me on the street
with the same knife that she
cut my wife with when I was on
my way home from calling up
the police to come down and
get her for beating her as I
did not know my wife was
cut until the patrol came
down and she was still chasing
me with the knife.
