plead guilty to burglary in the third degree. The amount that was stolen was trivial, probably not being a value excessive of \$20.00 or \$30.00. He was held in the county jail for sometime prior to entering his plea of guilty, the exact length of time not being within my knowledge.

I would say that the length of time that Mr. Eaton should serve should depend somewhat on his own conduct. His past life is very much against him. I cannot make any particular recommendation for the reason that I know so little about the matter.

If I can give you any further information regarding any of these matters, I shall be pleased to do so.
